

# GIANT ROCK CRUSHER

---

Honolulu Construction & Draying Company Establishes Modern Plant that will revolutionize the work of turning out Rock Products for Macadamizing Roads and Walks and for other Purposes.

Nine Hundred Yards of Crushed Rock of Various Sizes Milled Every Day,

enabling the company to Supply numbers 1, 2, and 3 Macadam in unlimited at Quantities

The Lowest Prices ever known in the Islands.

The Principal Obstacle in the way of expeditious and effective Road-Building in the past has been the Difficulty and Expense of obtaining Material Promptly, in Sufficient Amounts and at Reasonable Rates. These problems are all Settled Instantly by the Installation of the Immense

## McCully Gyratory Crusher

which will begin Operations MONDAY MORNING.

The plant between Kamoiliili and Kaimuki is in charge of Jack Belser who knows the business from top to bottom and, moreover, knows how to meet the requirements of the trade.

Orders for Crushed Rock of any size and in any quantity will be taken at the office in Queen Street or at the Works.
